

The MNO Directory 2011 – Basic Edition

Using information taken from the main MNO Directory, Blycroft Ltd offers these 8 regional mobile network operator directories. The main MNO Directory contains named management contacts, network technology information, mobile subscriber data, ownership details as well as contact information for 816 mobile networks throughout the world.

But not everyone in telecoms needs all that information; some clients just need to know the operational networks in their region and how to can contact them. Available for the first time, you can now purchase online and download instantly these need to know facts.

Each regional volume is made up of country by country listings of MNO profiles. A typical MNO profiles contains:

- *Network name*
- *Company name*
- *Website address (URL)*
- *Main telephone number*
- *Postal address*
- *Parent company identified*
- *Website address (URL) of the parent company*

All the extra (and sometimes not needed) data has been left out, as well as the full price. The full MNO Directory 2011 is GBP 995 for the global edition or GBP 395 per regional volume.

However, these basic editions are just **GBP 50 for the global edition** or **GBP 10 for the 1 region you need**.

Orders can be placed 24/7 at www.MNODirectory.com with delivery by instant download, great for last minute needs. Due to the low prices we are unable to accept orders by any other method. Receipted invoices will be e-mailed upon completion of your online purchase.
