## *Dearest Readers:*

Over the past 7 years, we have experienced several significant improvements that make 'MEMNOD' today a highly dependable resource, or as some put it - a 'must-have' for all those looking to cater to the variety of operator needs vis-à-vis opportunities emerging ahead – all across the globe.

However the first-timers will have plenty of good reasons to subscribe to it, the existing customers too will find this edition more intriguing & powerful than ever.

The 8th edition of MEMNOD presents full overhaul to its previous siblings– the architecture, flow of information, penetration rates (%age), network offerings, management contacts, email addresses (direct/ individual info); share patterns, and much more... basically, a complete make-over of how data was presented or put to use by the enthused vendor fraternity.

Also for the first time, we bring to you the EXCEL format other than the traditional (only PDF) format – which will surely serve a cutting edge to our customers over other incumbents serving to similar needs.

### **The Directory offers following information:-**

- Name of the Operator [Country Wise]
- Group Information
- Commercial Business Information [network portfolio, subscriber growth, penetration, ownership/ share patterns, etc.]
- Postal Address, Phone & Fax Nos.

If you're still not ready to delve into such advanced medium, you'll miss on what you can do without the enhanced features (e.g. auto-correction-tools, enhanced menus, etc.) offered by our MEMNOD 2015.

The July 2014 issue will start mailing to subscribers from 1st week of August (2014).

Nevertheless you'll find us as TEAM back at the helm of the goodship 'MEMNOD 2015' for past editions as well.

**Best regards –**
